REASONS FOR ALLOWANCE

Claims 1-9, 28-34, and 37-59 are pending.

Claims 1, 9, 37, and 49 are independent.

The Office has considered the IDS submitted 11-26-04.

This application is a CIP of 09/652,099 08/30/2000 PAT 6,579,288.

The following is an examiner's statement of reasons for allowance: The Applicant has obviated the prior Double Patenting rejection involving claim 1 by pointing out the Terminal Disclaimer filed 6-3-03. As a result independent claim 1 and its dependent claims (2-8 and 28-34) are in condition for allowance.

The Office concedes that the fluid supply line (26) in LaFontaine is not supported on the exterior of the catheter tube (84) at the inlet to an expandable member (80). As a result independent claim 9 is in condition for allowance.

The Applicant argues that Lafontaine in view of Tu would not make obvious a surgical probe with, *inter alia*, a plurality of energy transmission devices. Lafontaine probe includes an expandable member (80) with a single electrode (89) depicted in figure 5. The Applicant further argues that Tu (which includes more than one electrode) does not mention/suggest placing the electrodes inside an expandable member/tissue cooling apparatus such as element 80 in Lafontaine. Therefore, one cannot deduce from the combination of patents that it would have been obvious to design more than one electrode inside the expandable member/tissue cooling apparatus in Lafontaine. Independent claims 37 and 49 each disclose a probe with a tissue cooling apparatus

positioned about a plurality of energy transmission devices. The Examiner concedes. As a result independent claims 37 and 49, as well as dependent claims 38-48 and 50-58, are in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peter J Vrettakos whose telephone number is 571-272-4775. The examiner can normally be reached on M-F 9-6.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Linda C Dvorak can be reached on 571-272-4764. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
